SKILLS

- Typescript
- HTML/CSS
- Python
- Git
- Vue.js
- Django
- React JS
- Flutter
- Adpbe Photoshop / Premiere

SUMMARY

As a web developer, I have a solid foundation in front-end development with a primary focus on Vue.js. I was actively involved in a business intelligence project in my previous job. Additionally, I have experience exploring Django for backend development and working on mobile interfaces with React. I'm passionate about the broader field of development and eager to contribute to meaningful projects.

WORK EXPERIENCE

E-KALİTE YAZILIM DONANIM MÜHENDİSLİK TASARIM VE İNTERNET HİZ. SAN. TİC. LTD. ŞTİ.
August 2022 – October 2023

- Develop and maintain web applications with a primary focus on Vue.js, ensuring seamless user experiences and responsive design.
- I have also been involved in backend development using Django.
- In addition, I have actively contributed to the development of the mobile version of the app.
- Over the course of one year, I have actively contributed to various aspects of the project, gaining experience in different areas.

E-KALİTE YAZILIM DONANIM MÜHENDİSLİK TASARIM VE İNTERNET HİZ. SAN. TİC. LTD. ŞTİ.
(VUE.JS WEB DEVELOPER, 2021 INTERNSHIP 20 WORK DAYS)

The business intelligence project I was involved in required a migration to a new frontend. As part of the project, I designed and programmed the SMTP settings page, enabling users with admin privileges to edit the mail server used for sending clients e-mails.

TERCİH BİLİŞİM TEKNOLOJİLERİ LTD. ŞTİ.
(FLUTTER DEVELOPER, 2020 INTERNSHIP 20 WORK DAYS)

I was asked to develop two mobile applications for the front-end.
- The first application aimed to display real-time reports of the requested pharmacy.
- The second application focused on performing inventory counting using drug barcodes and generating counting reports.
